The Annual Quality Assurance Report (AQAR) of the IQAC

All NAAC accredited institutions will submit an annual self-reviewed progress report to NAAC, through its IQAC. The report is to detail the tangible results achieved in key areas, specifically identified by the institutional IQAC at the beginning of the academic year. The AQAR will detail the results of the perspective plan worked out by the IQAC. (Note: The AQAR period would be the Academic Year. For example, July 1, 2012 to June 30, 2013)

6. Governance, Leadership and Management

6.1 State the Vision and Mission of the institution

Vision:

The main vision was to have wide publicity and advancement of higher learning by which the young generation of the locality would develop themselves in culture, education, health, games, sports and above all they would be attracted to the development of the society as well as of the country. Labpur was culturally very much in the forward line of the district where eminent author like Tarasankar Bandyopadhyay composed the Ganadevata to create the consciousness of the people.

Mission at a glance:

Sambhu Nath College established in the year 1963 in a remote educationally backward area in the district of Birbhum with the mission of advancement of learning and to fulfil the dream of the younger generation towards attracting them for higher education by which the country would be enlightened from East to West. Dr. Sambhu Nath Bandyopadhyay, honourable Ex-Vice Chancellor and Justice of the Calcutta High Court had been kind enough to initiate the establishment of the college with some distinguished educationists in the district. It's a pleasure to inform to all concerned that eminent Sudhendu Ranjan Das, former Hon'ble Justice, Supreme Court of India, Dr. Satkari Mukhopadhyay former Adhyaksha of Naba-Nalanda Mahabihar, who all were present on August 16, 1963 on the occasion of its establishment.

- Blood donation camp and social work programme have been organized by NSS.

7.3 Give two Best Practices of the institution (*please see the format in the NAAC Self-study Manuals*)

Practice 1

Title: E-Administration

Objective: Efficient and fast disposal of work

Context: Sambhu Nath College is delivering services to large number of students, around 3500 in number. The college is spread over 1490.7 square meters of land with different teaching blocks accommodating 15 Departments, offices of NSS, College Library, Laboratories, two Hostels, two big playgrounds, two big Forests and three flower Gardens. Clerical staff working in the college falls short of the actual requirement. To process admission, fee collection, examination and other works of students are tremendous task, which can hardly be efficiently coped by existing clerical staff. There are so many other demands on account of reporting, accounting and managing diverse affairs of the college. Under the circumstances, it was planned to implement the scheme of e-administration. However, the college has to face a major challenge of popularizing the new technology among employees accustomed to old manual practice. Another challenge is to train all the clerical staff to handle their work through e-administration technology.

The Practice: E-administration is being implemented in gradual manner; Management & Admission System Software (CAMS) is specially designed to cover the various administrative and financial tasks of the college as per University Statutes, circulars and directives of the State Government. Admission, Pay roll, fees collection and accounting reports generation, audit report generation are implemented in the first stage. Staff working in these sections were motivated and trained with some incentives. Now, these sections are fully computerized and managed by a small number of clerical staff. In the second stage, College Library has been linked to the Server with specially designed software SCLMS which controls accession of books, cataloguing, issue and return of the book and finally generates no dues report to each and every student through a digitized process. This process of bar coding for all the books has been completed. Besides this, the library has a segment of an e-recourses containing e-books and journals. Thus the College Library has been turned into a Digitized OPAC Library.

Evidences of Success: Implementation of e-administration has eased the whole office administration. Admission process has become easy and user friendly, by using this admission software (CAMS). The process of selection on the merit basis under various categories has become more transparent. Fees collection and timely deposit of cash have been ensured. Daily accounts register, audit and other reports are automatically generated. Salary reports are generated without any error in time by using of our own software and the COSA, the software provided by the State Government for financial management. This has eased the workload of the college administration. Despite shortage of clerical staff in comparison to the huge structure and diversity of jobs, administration and governance has been working effectively.

Problems encountered and resources required: First and foremost a problem was the reorientation of mindset of our staff members who were accustomed to the old practice. Second challenge was to make them prepare by means of training to handle the college administration software (CAMS). One strategic problem was to check errors during transaction of different

activities by our staff. The college implemented e-administration in different stages. In the first stage, important transaction was preserved manually. To overcome any error during handling of new software, some professionals from the software company are hired to assist and train our staff.

Practice 2

Title of the Practice: Environmental Awareness

Objective: To create awareness about the environment among the Student community.

The Context: Due to the socio-economic background of our students, we have observed a general lack of awareness about the environment. The local topographic features create an arid hostile geoenvironmental feature. Within the scenario we can find many varieties of local flora and fauna. To protect and preserve those bio-diverse features through many awareness campaigns should be the main objective.

The Practice: We try to create a general awareness on how important it is to preserve the environment by having a plastic free zone in and around the campus. We also encourage students to plant trees so that we have a greener and a cleaner tomorrow through CDM. We have also conducted workshops in the college to create general awareness about the environmental biodiversity. The NSS Unit functioning under the supervision of the Programme Officer often organizes tree-plantation & maintenance programmes in and outside the campus. These planted trees are also maintained carefully by the college authorities. All major species are properly identified with their scientific name on individual name plate by the Department of Botany. The College at its own level has taken up certain preventive measure to check the emission of carbon Dioxide. The College developed the system for outside visitors, students and staff to park their vehicles' on a separate side adjoining to the entrance. This helps a lot in keeping the campus clean. In order to reduce pollution and unnecessary wastage of vehicle fuel the College does not allow two wheelers by students on campus. The campus is also smoke free. The dead leaves and waste papers are not allowed to be put on fire. The Eco-club which is named after the renowned ornithologist Dr. Selim Ali, practicing few steps for creating biodiversity equilibrium. The members of Eco-club put some water bowls in different places for birds, squirrels and other living creatures. Some mud vessels are used in different parts in the campus as nest for the birds. Eco-club members are trying to make a catalogue of the local and migratory birds in the college and nearby locality with the help of the few teachers and local people. The Eco-club organizes some awareness programmes for the students such as water conservation, soil erosion, deforestation, green house effect, carbon foot print measurement etc.

Evidences of Success: Today we can gladly say that we are able to keep our campus clean. We have successfully also been able to create a plastic free zone. Not only that a general awareness or environmental consciousness is developed among the students regarding the use of plastic, conservation of water, plantation etc.

Problems encountered and resources required: The College does not have enough resources to organize workshops and invite external advisors. We still try to work with our limited resources and bring the best out of it.

7.4 Contribution to environmental awareness / protection

- Responsive to the cause of sensitising staff & students of the institution on the issue of environment.
- Creation of plastic free zone

7.5 Whether environmental audit was conducted? Yes No

7.6 Any other relevant information the institution wishes to add. (for example SWOT Analysis)

Strengths:-

- (i) One of the pioneer co-educational colleges situated in a rural area with well defined goals, mission and vision.
- (ii) The college runs on a non-profit basis (which is an important aspect of modern day teaching to cater to the needs of the rural society).
- (iii) Students are disciplined, obedient and cordial with the teachers.
- (iv) There was no loss of working day due to students hazards.
- (v) The students' result in the University Examination is very satisfactory and drop out rate is strictly decreasing.
- (vi) The academic quality of the faculty members is noteworthy and many of them are research oriented.
- (vii) The college has a huge campus surrounded by a boundary wall and can expand horizontally in future.
- (viii) The method of teaching is strengthened by ICT based Wi-Fi connectivity, computerised and digital library, well equipped laboratories that co-exist with a clean and green campus with a deep forest and three flower gardens.

Weakness:-

- (i) Shortage of non-teaching and teaching staffs in relation to the total student strength.
- (ii) Lack of formal industry-institute collaboration.
- (iii) A few faculty members are unable to adopt the modern methods of teaching.
- (iv) Scarcity of fund to construct new building, purchasing of modern equipment and maintenance of infrastructure is a major problem of the college.

Opportunities:-

- (i) The college has a vast area and can expand both academic space and sports facilities.
- (ii) More major/minor research projects may be applied for further research.
- (iii) Since a part of the college students belongs to the scheduled tribes a Tribal research centre may be established.
- (iv) The college is yet to establish a new professional/job-oriented technical course.
- (v) To introduce PG programme in Bengali, Sanskrit, English and History.
- (vi) To introduce Honours course in Chemistry and a general courses on Statistics and Physical Education.

8. Plans of institution for next year

- (i) To construct an auditorium cum seminar Hall.
- (ii) Construction of girls' hostel.
- (iii) To enhance the practice of Inter-College Faculty Exchange Programme.
- (iv) To establish a publication wing on a regular basis is a crucial challenge.
- (v) To introduce Statistics as a subject in the General course.
- (vi) Literacy Programme.
